

CCIB™

Effective 30 November 2020, The United States Department of Defense (DoD), issued an Interim Rule to amend the Defense Federal Acquisition Regulation Supplement (DFARS) with a mandatory DoD Assessment Methodology and Cybersecurity Maturity Model Certification (CMMC) framework to assess the cybersecurity implementation status of the 300,000+ contractors in the Defense Industrial Base (DIB) with regards to protection of Controlled Unclassified Information (CUI) within the DoD supply chain. That framework is based on the cybersecurity requirements listed in NIST SP 800-171r2.

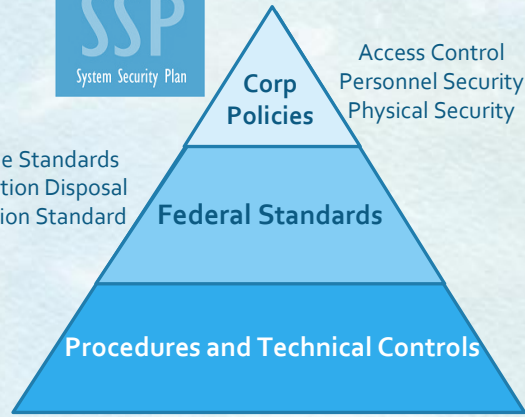

Dnutch Associates, Inc. has engineered a turnkey solution called CCIB™ (CMMC Compliance In a Box). It is comprised of a secure laptop bundled with a secure Cloud package, to expedite the process of compliance with the DFARS Interim Rule, and subsequently with CMMC.

CCIB™ assists Primes and subs in rapidly achieving the mandated compliance required for award of government contracts, in a very cost-effective manner.

Biometric Authentication

Dnutch CCIB

Dnutch CCIB™ provides a secure platform and a secure GovCloud connection

Corporate Policies and Plans

CCIB™ dovetails with tailored corporate System Security Plans (SSPs)

LEVEL OF MATURITY	TECHNICAL FRAMEWORK			
	FAR 48 CFR 51.204-21	NIST 800-171 r1	Additional cyber hygiene practices	Draft NIST SP 800-171B
Level 5 (Progressive)	✓	Entire NIST	11	Select subset of 4 practices
Level 4 (Proactive)	✓	Entire NIST	15	Select subset of 11 practices
Level 3 (Good)	✓	Entire NIST	20	
Level 2 (Intermediate)	✓	Select subset of 48 practices	7	
Level 1 (Basic)	✓			

Level 3 DFARS Compliance

Together, Dnutch CCIB™ and corporate SSPs provide the technical framework of cyber-hygiene required for DFARS/CMMC compliance
